press-mount  
(360 degree rotation)

The AzTech E-Z Hoist Model DL-300, with 360-degree rotation and lift capacity of 300 lbs. allows you to safely load and unload dies and rollers eliminating expensive damage and avoiding personal injury. Utilizing the precision press mounts anywhere on your equipment, the E-Z Hoist can be easily removed and re-located for use, and when used with the MP-400 mobile platform, the E-Z Hoist can perform numerous tasks throughout your work environment.

- Reduces workplace back injuries and material damage
- Eliminates expensive die and roller damage
- Smooth and easy up and down movement
- Manual or Electric Lift
- Easy to install and remove
- Custom design and fabrication available
