

ROLL-X90 by AZTECH

Invertible Table Top Rewinder

AZTECH...*Converting Your Success*

The innovative ROLL-X90 by AzTech is quite simply the perfect blend of versatile, brilliantly simplistic and cost effective Rewind and Doctoring System for today's demanding and competitive market.

The bi-product of AzTech's over 25 years of experience and earned reputation for providing innovative versatile and invaluable roll to roll converting products, the ROLL-X90 revolutionizes the industry by incorporating 90 degree web rotation to operate either in horizontal orientation for conventional table rewinding, or in vertical orientation for web inspecting and doctoring and for easily loading and unloading heavy or delicate rolls.

Horizontal Orientation

Features include:

- 90 Degree Invertible Configuration for Both Vertical and Horizontal Operation
- Bi-Directional Web Path Configuration
- Available for 10" and 13" Maximum Web Widths
- Dual Pneumatic Brakes for Precision Torque Control
- Mechanically-Controlled Splice Table
- Bi-Directional, Programmable Increment Counter
- Operator Control Panel
- Pneumatically Adjustable Tension Control
- Vertical Orientation Allows for Fast, Simple & Precision Splicing
- (1) 1 HP DC Drive Unit/110 Volt AC with Standard Plug-in
- (2) 22" Maximum Diameter Unwind/Rewind Roll Capacity
- (2) 3" Diameter Pneumatically Inflated Quick Change Spindles (Other Diameter Spindles Available)

Vertical Orientation
